Immense Republican Meeting at Uniontown—The News from Maine Received—Wildest Enthusiasm—Speeches by Messrs. Penniman and Covode.

[Special Dispatch to the Pittsburgh Gazette.]

UNIONTOWN, PA., Sept. 14, 1868.

To-night a glorious meeting is going on in the Court House. While I write this dispatch Mr. Penniman, editor of the Pittsburgh *Gazette*, and Hon. John Covode are addressing a large meeting in the Court House. The wildest enthusiasm prevails.

Whilst Mr. Penniman was speaking a dispatch from Maine was received stating they had carried the State by 20,000 majority. The dispatch was read and the shouts of the loyalists made the Court House ring. Mr. P. caught up the inspiring news and by his well-timed remarks brought down round after round of applause. If you have any more such argumentative speakers as Mr. P. send them on.

Mr. Covode followed in one of his best efforts, showing up the hypocrisy and dishonesty of the Democracy and their candidate. His speech was quite effective, and the people cheered most lustily.

Favette will do her duty for the Republicans at the election. J. H.

Naval Dispatches Concerning the Earthquake on South American Coast—Gen. Hooker—Department Affairs—The Case of Surratt.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, September 14, 1868.

THE EARTHQUAKE ON THE PACIFIC COAST.

Master O. White, United States steamship Wateree, arrived this morning as bearer of dispatches from Admiral Turner, giving details of the late earthquake on the Pacific coast of South America, most of which has been published. Mr. White left Arica on the 16th of August. The report incloses others from Commander Gillis of the Wateree, and Captain Doty of the Fredonia. Commander Gillis reports his vessel forced on shore at twenty minutes past seven in the evening. But one of the crew is known to have perished, though several are missing, they having been sent ashore to render assistance, and not having returned. The crew of the Wateree remained on board during the day time, but as there is a continued reoccurrence of shocks, and the Peruvian corvette America lies broadside almost directly in front of her, and if another heavy sea should occur the Wateree would be crushed. Precautions are taken to remove the officers and crew on shore for the night.

Admiral Turner's report is dated Callao, on board Powhattan, August 20th. He would sail the next day for Arica, and keep on a strong head of steam while there so as to be able to put to sea at a moment's warning on the approach of any danger. Admiral Turner had an interview with the President of the Republic on the 20th and proffered his services to take down provisions, stores and nurses to the extent of the capacity of his ship. There is not a vestige left of the Fredonia. The last seen of her she was being carried entirely around the island of Alasanna, where she must have been dashed to pieces on its shores. It would cost more than the original value of the Wateree to extricate her, and the undertaking would probably be useless, as the ship is much strained, though the hull is perfect. The bodies of Acting Master Organ and five of the crew of the Fredonia have been washed ashore, and Captain Gillis was making arrangements for their burial. The following only of the officers of the crew of the Fredonia remain alive: Capt. G. W. Doty, Paymaster W. W. Williams Post Assistant Surgeon, F. L. Dubois; Master-at-Arms, Charles S. Seville; Quartermaster, August Lanner.

Captain Doty informs the Navy Department, under date of August 16th, that he thought it best to remain at Arica to look out for the remains of his crew and give them a decent burial.

FROM EUROPE.

[By Telegraph to the Pittsburgh Gazette.]

ENGLAND.

LONDON, Sept. 14.—The press of this city variously comment upon the recent speech of Napoleon at Chalons. The following was made use of by the Emperor on that occasion: "I will say nothing more, as he public prints are sure to draw prophecies of war, however moderate my words are."

The *Times* has a long editorial on American affairs this morning. The writer believes Mr. Johnston has a *carte blanche* from his Government to settle the Alabama case. The case of itself presents little trouble. The only difference is the reluctance of the American government to settle a difficulty growing out of war resentments. No American statesman ever believed that the Alabama escaped with the connivance of Great Britain. There might be a question of inadequate laws, making England answerable, but this could be easily settled. The real grievances of the United States was the indifference of England in the civil war, and her willingness to see the Union dissolved. Of this the Americans were conscious at the time, and remember keenly. Now they think we should have had an active sympathy with the North, that a Confederacy based on Human Slavery should have at once been condemned; that the Republican party was the true friend of England; that it was wrong even to doubt the success of the Federal arms. After all the anger of the Americans was due to their consciousness of England's want of sympathy in their hour of peril: but the anger, if right, has been enough indulged. Mr. Seward has refused the handsome offer of America, which should be credited to England. He now cuts the past adrift and the thing is as good as settled. Legal points will not stand in the way; the only thing to ascertain is the responsibility of England to fix the proper indemnity.

The Pittsburgh Gazette.

BEFORE, DURING, SINCE.

BY A PATRIOT.

Thou h thou that art betrayed do feel the treason sharply, yet the traitor stands in worse case of woe. —*Shakespeare.*

TRAITOR.—One who, in the breach of trust, delivers his trust to an enemy. One who betrays his trust.—*Webster.*

When Southrons in their cherished hate,
Resolved o n separation
And claimed that every Federal State
Was, in itself, a nation,
Where stood Horatio Seymour?

And when they caused wide-spread alarms,
By their assumed transcendance,
And madly sought, by force of arms,
To gain their independence,
What said Horatio Seymour?

And when "Old Abe," the President,
Most kindly did apprise them,
If they did not at once repent
He surely should chastise them,
What did Horatio Seymour?

And when at length the war began,
And patriots f ared and trembled,
Which was the party—who the man,
That in tha' hour dissembled?
Was it Horat o Seymour?

And when New York was hideous made,
By mob with fire a d bludgeon,
Who was it then his trust betrayed,
And showed h mself a gudgeon?
Who says, Horatio Seymour?

And when, throughout the fearful strife,
Our "boys in blue" were fighting,
Who periled much the nation's life
By publ c speech and writing?
Was it Horatio Seymour?

And when our Legislature said
Our "boys" might vote by proxy,
Who was it showed he had a dread
Of such a liberal doxy?
Just ask Horatio . eymour.

And when in eighteen sixty-four,
So many "*dems*" were cheated,
By being told the war wa. o'er,
And that we were defeated,
What said Horatio Seymour?

And then, when Grant chastised the foe
To terms of forced submission,
Who sorry seemed that it was so,
And mourned his "friends" condition?
Please ask Horatio Seymour.

And since the "*reb*" were forced to yield,
Their open warf re ended;
Since they were conquered in the field,
Who have their cause befriended?
Just ask Horatio Seymour.

And while the Congress guards with care
The interests of the nation;
Who seeks to force a second war,
By balking legislation?
Again ask Blair and Seymour.

When rebel hands are stretched across
The graves of freedom's martyrs,
In hopes to remedy th ir loss
By ballots, force or charters,
Where stand both Blair and Seymour?

When Northern "*dems*" and Southern "*rebs*"
Are in affiliation,
As warp and woof in weaver's webs,
Who hail the close relation?
J ff. Davis, Blair and Seymour?

—The Minneapolis Woolen Mill at Minneapolis has about half the capacity of the North Star Mills at the same place.

—There are thirteen large flouring mills at Minneapolis. In 1867 they made 221,000 barrels of flour, worth over $1,800,000.

—Eight blast furnaces have been idle all summer for want of coal in Youngstown, Ohio. But last week they all started again.

—Aurin Wood, of Worcester, Mass., has invented a lathe for turning shafts by which shafting of the largest size can be turned as rapidly as the smallest rods. It is on exhibition at the works of Wood & Light, and is attracting great attention on the part of machinists.

—Nearly all of the bank-note paper used in this country is made in Philadelphia. There are two other mills in this country, but the one in Philadelphia does the most work by far. The paper is made of only linen rags, imported for the purpose from Ireland, and is as white as snow.

—An extensive manufactory of wooden ware has been established at Minneapolis. Last season this establishment turned out ten thousand dozen pails; three thousand dozen tubs; seven hundred dozen half bushel measures, three hundred dozen churns and five hundred dozen horse pails, etc.

A Man With a Charmed Life.

All great cities are full of strange characters, but at present New Orleans excels in this respect. Living here is an individual whose remarkable career is almost without a parallel in the annals of romance. He was born in Indiana, and is now about forty years of age. His name is Edward Caruthers. Being engaged in a personal difficulty with a man named Simpson, at Madison, in the fall of 1846, he killed his antagonist and fled to the American army, then entering Mexico. At the battle of Chapultepee he was taken prisoner, and laid for months in a Mexican dungeon. Being released at last he married a Spanish girl, and settled on the Rio Grande. Here being attacked by the Indians, himself and family were carried into captivity, where he again spent two years. Effecting his escape he joined a ranger company, and was shot in a fight with the Comanches, scalped, and left for dead. He however recovered and joined the Walker Expedition to Nicaragua, where he was wounded, captured, and again imprisoned. But being again released he sailed for the United States. The vessel he was in was wrecked, and he barely escaped with his life. He was one of the passengers on the ill-fated Evening Star, and again escaped death where so many perished. He is now a resident of this city, and delights in relating adventures which are certainly remarkable to a last degree.—*N. O Picayune.*

A YOUNG MAN from Berkshire county owes his fortune to his face. He recendy made the acquaintance of a lady on one of the Hudson river boats, who took a great fancy to him from his resemblance to a deceased son of her own. She invited him to cal on her in New York. He did so, and there found an attractive young lady, the betrothed of the deceased son, who also recognized the resemblance, and asked him to call again. The result was the revival of the affections of the widowed maiden, and an engagement of marriage with the Massachusetts boy. The young lady, however, was sick of a fatal disease, and soon followed her first lover, on her death bed bequathing some $12,000, which she held in her own right, to the young man whose face had won her heart for the second time.—*Boston Post.*

RIVER NEWS.

The river was again rising at this point last evening with eight and a half feet in the channel. We should not be surprised to find ten feet this morning, as the Monongahela was reported rising above with fifteen feet at Geneva. The Allegheny does not seem to be doing much good, only twenty-six inches reported at Oil City. The weather yesterday, especially in the afternoon, was clear and pleasant, indicating that the rain is over for the present.

There has been no arrivals since the date of our last report. The J. N. McCullough, from Cincinnati, was due last night, and will doubtless be found in port this morning.

The Bayard departed for Parkersburg on time with a good freight list, and quite a number of passengers. The Grey Eagle, in command of Capt. C. L. Brennan, is the regular Wednesday packet for Parkersburg leaving promptly at noon.

The Armadillo, Capt. D. H. Swaney, will positively leave for St. Louis and Missouri River to-day, and passengers and shippers should bear this in mind.

The Mary Davage was due from St. Louis last night, and will commence loading at once for a return trip. Capt. Hugh Campbell still retains command, with Mr. B. F. Whiling in the office.

Capt. A. H. Shaw, who is having a new boat built here under the superintendance of Capt. D. S. H. Gilmore, is expected here from the West within a few days.

Tow boats continue to arrive and depart, and the fact that the river is again swelling will be good news for our coal men. The amount of coal that will get out will be much larger than was at first expected.

The Messenger Capt. Dean, will commence loading for St. Louis this morning, and will soon be ready to take her departure. She is one of the finest boats in the trade, and as a consequence offers superior inducements to passengers. Mr. James Russell has charge of the office.

Capts. Sam. Shuman, John Conway, and Ed. Evans, arrived at Cincinnati on Saturday last.

The Bellevernon is enroute from St. Louis to Pittsburgh.

Capt. Geo. D. Moore went out in charge of the Bayard yesterday. Capt. Shepard will probably assume command next trip.

In was reported yesterday that the towboat Leader had her wheel knocked into a "cocked hat" near Wellsville, on Sunday night, having been run into by the Antelope.

Business was moderately active at the landing yesterday, and, apparently, improving.

Capt. Wash Kerr, of the Robt. Moore, is on the look out for another boat to take the place of the Moore in the Pittsburgh and Portsmouth trade.

GOLD closed in New York yesterday at 144@144⅛.

IRISH DEMOCRATS will do well to remember that BLAIR was a Know Nothing in 1854, and that in a speech in St. Louis, two years since, he told the "Finnegans," as he insultingly called them, "to go along to Ireland, and stay there, for we could get along without them."

A SEYMOUR AND BLAIR CLUB in Louisiana recently adopted and published the following:

"Whereas, it has become the *settled policy of the Democracy of this State not to give employment or support of any kind to members of the Radical party;*" &c.

This admirably illustrates Democratic love for the poor man. We printed, a few days since, some choice extracts from high authority in that party—every one of those whom we quoted, boasting, like HORATIO SEYMOUR, of hands white and soft as a woman's—which showed them to be intensely selfish Aristocrats at heart. They hold the proper condition of labor to be servitude; they say it in plain words. Is it surprising then that they shonld claim the subserviency of the laboring man's soul as well as of his body? To own his principles as well as his toiling strength? This should not be forgotten by the workingmen of Allegheny, who already see the candidates of the so-called Democracy here assenting, by their persistent silence under enquiry, to the same abominable doctrines.

NEW YORK POLITICIANS.

The New York *Commercial Advertiser* announces that "upwards of seven hundred illegal naturalization papers have been issued under the sanction of the County Judge and County Clerk," and adds that "the county Republican Committee are about to appoint a special committee to watch the matter." That is the way things are done in New York. After the opposition have completed their arrangements to poll hundreds and thousands of illegal votes, the "Republican Committee are *about*" to do something in the premises. After the horse is stolen; they put a better lock on the door. They are ever "about" to do something after it is too late to remedy the mischief. It is this sort of management, tardy, shiftless and not worth a row of pins, which halts and shambles along impotently in the rear of daring and successful scoundrelism, which has made Republicanism, Law and the Purity of the Suffrage a by-word and a mockery in that city, enabling an audacious and unscrupulous opposition to multiply their fraudulent majorities at discretion, imperilling the safety not only of the State, but of the Union. Let us call things by their right names, and speak the truth while it is not too late. This Presidential contest hinges, if at all, not upon the vote of Maine, or Ohio, or Pennsylvania, but upon that of one great city which, in turn, is to be made decisive of its State, and thereby of the Union. We can take care of the other States, and the Republicans of New York can take care of that State outside of the city. But it is precisely this sort of scoundrelism there,—which our friends are forever "about" doing something to check—which is relied upon to elect SEYMOUR and BLAIR. The inefficiency of the Republicans of that city is simply disgraceful. It adds to the load to be carried by their friends elsewhere, and contributes next to nothing to the achievement of a victory. A little reconstruction in that latitude would not be amiss.

LONG LIVE THE REPUBLIC.

The friends of the Union in Maine have crowned a protracted and exhausting struggle with a triumph unmatched for its glory and decisive in its results. On a total poll of 128,000 votes, being 16,000 more than ever before cast in that State, their majority for the Republican Union ticket was not less than *twenty-two thousand* yesterday, doubling their last year's majority, and will easily swell to over *thirty thousand for Grant and Peace* in November.

Let no man believe that the Democracy—the party of Revolution—the party which would obliterate the honorable records, with the honorable obligations, of one rebellion crushed—the party which would overthrow with arms our Constitution and Laws, as it would trample under foot the triumphs which Freedom has already won, the Equal Rights of white men, as well as those of the once oppressed and enslaved—that this party, with its impudent menace of a new Rebellion in behalf of a cause not only Lost, but Damned by the consent of all Christendom, has suffered the free people of Maine to pronounce yesterday's emphatic verdict without the most desperate efforts to avert the condemnation. The broad Union, in all this canvass, will present no battle ground more stoutly contested than has been this remote corner of the Republic. Men, money, arguments, oratory, seductions and menaces have been showered like water upon that field. The Democracy have exhausted their last resource to stem the swelling tide of popular indignation, to obscure the true issues of the canvass, to sap the fidelity and to bribe the honest judgments of its people. More than these desperate and despairing politicians have done, to avert the impending sentence which Maine now pronounces in the name of the Republic, could not be done by mortal men. They have failed. Her people are neither to be hoodwinked by the special pleading which defends a second rebellion under cover of assaults upon the legitimate consequences of their first enormous crime against the National Life, nor have they been seduced by the corrupt blandishments of a Dishonest Escape from their Just Engagements. The freemen of Maine wash their hands of SEYMOUR and BLAIR with Anarchy and Civil War, as well as of PENDLETON and his theory of Financial Repudiation. The Lost Cause shall not be won again by their consent, nor shall the Cause once Triumphant, the Cause of Peace, of Order, of Law, of a newly-born and Perfect Freedom, be itself in turn defeated now, while their ballots can save it.

Alone of all the New England States, the Democracy of Maine have accepted and maintained to their fullest extent the shallow fallacies of PENDLETON. His personal explanation of his peculiarly New Way to Pay Old Debts has failed to commend it to the approval of that people. They see plainly that the lamb skin covers the old gray rebel wolf, and yesterday's ballots, effective as bullets, have gone clear through the traitor's disguise and reached the rebel heart.

First Vermont, then Maine; with their loyal sisters far away toward the Pacific. And then shall come our own Pennsylvania. Men and brethren, shall we shut our eyes and stop our ears and lay heedlessly on our arms, or shall the old Keystone blaze with our loyal watchfires and hold gloriously its post as the impregnable centre of the Union host, beating back the demoralized rebels, and bearing the dear old Flag high over the smoke of the battle to a Final Victory and Perpetual Peace? You will soon answer, and neither Maine nor Vermont will then be ashamed of you.

FLING OUT YOUR BANNERS!

As the 24th of September Convention is near at hand, our friends would do well to prepare their banners, streamers and flags to hang out on that occasion. There is now every prospect that we shall have a grand outpouring of the people at that time, and the Republicans of Pittsburgh and Allegheny owe it to their reputation for devotion to the good cause to greet the crowds with a splendid display of bunting. Let every Republican, Manufacturer, Merchant or Storekeeper, and every Republican householder get ready a flag, streamer, or some other token of welcome, and spread it to the breeze, from their warehouses, stores and residences. We want to see our thoroughfares as gay as a festival, at that time, and as nearly everybody will soon be busy in getting ready, the earlier every one goes to work at it the better.

IN THE brief period of two years, the War Department has paid nearly $500,000,000 bounty claims, disbursing in their payment $36,875,882.50, in sum ranging from $50 to $100 and $200, at a cost to the government of less than $1 per claim, including the pay of officers, clerks, rent of offices, cost of fuel, and all others of every character. The immense labor expended in the settlement of these claims, the public may estimate not merely from the large amounts disbursed in such small sums, but from the fact that each claim, after being received and referred, had to be recorded, and the military history of each individual soldier had to be traced to ascertain whether he was entitled to the bounty or not.

NEW PUBLICATIONS.

A PICTURE OF THE DESOLATED STATES: AND THE WORK OF RESTORATION—1865–1868. By J. T. Trowbridge, author of "Neighbor Jack," etc. Published by L. Stebbins, Hartford, Connecticut.

This work is prepared in a style which ought to make it popular among the masses, and for the valuable information of the late war which it contains. The writer has used greater care, too, in its preparation, than is usually the case with works of this character. All the noted battle-grounds were visited by the author, at the close of the war, and the discriptions and facts embodied, are either the result of personal observation, or obtained from responsible sources. The author seems to have had only in view the simple truth, and has therefore sought to avoid the coloring of facts, which he had gleaned during his visits to the South. The volume is also an excellent one for campaign purposes, inasmuch as the question of reconstruction is treated at great length, in which is shown the condition of the Southern States, after the war, the attempts of President Johnson to recognize them, and the different steps of the Congressional plan of reconstruction, the action of the several Southern States in relation to their new Constitution, and an account of the war between the President and Congress. Brief but excellent accounts of the leading events in the lives of Grant and Colfax, are also given. It will doubtless have a wide sale. The work is sold by subscription. Persons wanting an agency will address L. Stebbins, Hartford, Connecticut.

NOTES, CRITICAL, EXPLANATORY AND PRACTICAL, OF THE BOOK OF PSALMS. By Albert Barnes. Published by Harper & Brothers, New York. For sale by W. A. Gildenfenny, Pittsburgh.

Few commentators have found such general favor, from the public, as Mr. Barnes, mainly because he has sought to simplify the truth and render *help* to the student of the Sacred Word. Any diffuseness that may appear at times, in his "Notes," should be viewed as a desire upon the part of the venerable author to give a clear conception of the part under consideration. The honest candor of Mr. Barnes is prominently seen in this volume, and which, indeed, is true of all his writings. We are not surprised, in view of the popular features of this deservedly popular work, that over a million copies of his previous commentaries have been sold. This is the first of three volumes.

LITTLE DORRITT. By Charles Dickens. With eight illustrations. Published by Ticknor & Fields, Boston. For sale by Robt. S. Davis, 93 Wood street, Pittsburgh.

Frequent reference has been made to the excellencies of the "Charles Dickens Edition" above the many editions offered to the public. It certainly possesses attractive features which should weigh largely with buyers. Beautifully bound in purple cloth, neat clear type, and admirable head lines on every alternate page, and other special characteristics, are the crowning features of this edition, and withal so cheap, one dollar and a half per volume. This beautiful tale of Dorrit is full of touching incidents, and the characters are drawn with a master hand. The story, too, has traits which render this volume among the most popular of his works. It is beautifully illustrated, which adds much to its attractiveness.

THE MOONSTONE. A Novel. By Wilkie Collins. Published by Harper Brothers, New York. For sale by W. A. Gildenfenney, 45 Fifth avenue, Pittsburgh.

Most reviewers of "The Moonstone" speak of this novel with extravagant praise, and whatever defects may be detected here and there, the verdict is that it is a wonderful creation, and a positive addition to romantic literature. It combines power, originality of conception, admirable plot and an uniqueness of style, that few publications of late have possessed. Taking it as a whole it illustrates Mr. Collins' genius and talents as a novelist.

EARTHEN VESSELS. By Archie Fell. Published by Henry Hoyt, Boston. For sale by Robert S. Davis, Pittsburgh.

Rarely have we read a more touching story, illustrative of the power of Divine grace, under the peculiar disabilities incident to life. The leading characters are charmingly drawn and are life-like. Grace is richly blended in every phase of everyday life, especially in the central character, "Clytie," who is a worthy model for young people. We have here delineated the character persons may attain in the kingdom of grace, though "earthen vessels." It is a capital book for young folks.

PETER SIMPLE. Published by D. Appleton & Co., New York. For sale by Henry Miner, Pittsburgh.

This is the second volume of Marryatt's Sea Novels. The book is well printed on white paper, and makes a stout volume of five hundred pages—for forty cents.

We have also received "The Pirate" and "The Abbott," two volumes of D. Appleton and Co.'s cheap edition of the Waverly Novels. They are elegantly gotten up and so cheap, only 25 cents per volume. For sale by Mr. Henry Miner, Fifth avenue.

Mr. W. A. Gildenfenny, 45 Fifth avenue, sends us "Peter Simple" and "Jacob Faithful," of the series of Maryatt's Novels by R. M. Dewitt, New York. Very cheap at 25 cents, and well printed, double columns. From the same house and publisher we have been favored with "The Radical Drum Call." This volume of patriotic songs ought to command a ready sale during the canvas.

THREE CHRISTMAS DAYS. Published by Henry Hoyt, Boston. For sale by R. S. Davis, Pittsburgh.

This little volume is "A Story for Girls," and a sweet one it is. Just the kind of a story book for the "wee folks," and so well illustrated. The volume belongs to "The Hillside Library" series.

THE POETICAL WORKS OF JOHN MILTON. To which is prefixed a biography of the author, by his nephew, Edward Phillips. Published by D. Appleton & Co., New York. For sale by Henry Miner, Pittsburgh.

We have already commended this popular edition of the Standard Poets, when the first volume appeared, Scott's Poetical Works. It has many excellencies to commend it to the public, and it is surprisingly cheap—fifty cents.

POLITICAL.

Meeting at Library.

The Republicans of Snowden township held a large and unusually interesting meeting at Library, in that township, on Saturday afternoon. A platform for the accomodation of the speakers had been erected on the North side of the church, and seats sufficient for a thousand persons were arranged in front of the platform in the shade of the church. An excellent band of martial music was in attendance, and long before the hour for opening the meeting the seats were all occupied. The meeting was one of the most orderly that has been held during the campaign, notwithstanding it was alive with enthusiasm. The Republicans of Snowden township are alive to the importance of the issues pending in the contest and have resolved to give Gen. Negley and the entire State and county ticket a larger majority in October than it has been the custom to give the old veteran and people's favorite Gen. Moorhead.

At two o'clock the meeting was organized by calling Esquire Miller to preside. Mr. Miller, on taking the chair, thanked the meeting for the honor conferred upon him, and in an appropriate manner introduced H. H. McCormick, Esq., who addressed the meeting at considerable length.

Mr. McCormick, after a few preliminary remarks, in which he defined the points at issue between the two parties in a clear and satisfactory manner, turned his attention to the question of reconstruction, which he thoroughly and ably discussed. He held that the power of reconstructing the States lately in rebellion belonged alone to the loyal Congress, and that Congress alone had the right to dictate the terms by which they should be admitted as bodies politic into the Union, from which they had voluntarily taken their departure and which they had attempted to destroy.

His address, although occupying over an hour, was listened to with marked attention by the vast audience, and was highly applauded at the close.

The Chairman then introduced General Moorhead, who spoke for more than an hour and a half in his usual focible manner.

The meeting then adjourned with three cheers for Grant and Colfax, the State and county ticket and the speakers.

Mass Meeting in Allegheny—Immense Turnout—Speeches by Messrs. McCune and Siebeneck.

Pursuant to call the Republicans of the Fourth ward, Allegheny, turned out in immense numbers, last evening, in front of the Bismarck Hotel, Main street, to exhibit their enthusiasm in the cause of Loyalty and Equal Rights.

The Washington Cornet Band was in attendance and enlivened the occasion with patriotic and soul stirring music.

Previous to the organization of the meeting, the Fourth Ward Minute Men were marched up in solid phalanx, uniformed and carrying torches, and were received with deafening cheers.

At half past seven o'clock the meeting was called to order by John D. Bailey, Esq., upon whose motion the following officers were chosen:

President—R. B. Francis.

Vice Presidents—J. S. Slagle, William Brown, John Deckeman, Jr., W. Holtzman, A. N. Burchfield, John Hazelet, Jr., Theodore Straub.

Secretaries—T. C. Campbell, John Keown, C. Shaffer, and reporters of Republican press.

Eloquent and logical addresses were made by Messrs. W. S. McCune, in English, and J. J. Siebenack, in German, who discussing in an able manner the issues of the hour and their remarks eliciting frequent and enthusiastic applause.

Professor Pope entertained the audience in the interval between the speeches with one of his humorous songs, and at a late hour the meeting adjourned with three rousing cheers for the Republican nominees Grant and Colfax.

Republican Meeting at Hazelwood.

The Republicans of Hazelwood, Twenty-third ward, held a meeting in Public School House No. 6, on the Braddocks Fields Plank road, on Saturday evening.

The meeting was called to order at eight o'clock by J. W. Paul, Esq., upon whose motion the following list of officers was chosen:

President—Geo. H. Anderson.

Vice Presidents—Daniel Thomas, Capt. Jos. Nixon, Wm. Wiley, C. Roderus, Gustave Hollick, James Watson, David McCargo, W. J. Lewis, James Gardener, Frank Khone, John R. Bingler, Wm. H. Brown, James McKibben, John Troop, Samuel Thompson, John Grey.

Secretaries—John C. Stephenson, Jas. B. Oliver, P. F. Smith.

Mr. Haines delivered a lengthy and very able address and was frequently applauded. He reviewed with remarkable ability the courses of the two parties during the past eight years, and the character of the men who helped to make up those parties. The respective candidates, the financial question, and the reconstruction measures also received his careful attention, and the remarks which he let fall on those subjects were calculated and no doubt did make an impression on the loyal voters present.

The Great Western Brass Band was in attendance, having gone out from the city in a four-horse wagon, in which was a large and brilliant transparency suitably inscribed. The band discoursed some very excellent and lively music, which tended in a great measure to enliven the meeting.

C. W. Robb, Esq., was the next speaker introduced, and he delivered one of his usual pertinent addresses, receiving frequent rounds of applause during the delivery of the same.

Grant Hussars.—A company of this organization, consisting of residents of the Fifth ward, Allegheny, met at Grant and Colfax headquarters, last evening, and elected officers: Captain, D. E. Adams; 1st Lieutenant, W. C. Cook; 2d Lieutenant, W. R. Johnson. The company will be uniformed immediately, and all members are desired to be on hand this evening to make necessary arrangements for a turn out on to-morrow evening.

MEDICAL HINTS FOR THE FALL.

The semi-annual shaking in the fever and ague districts has begun. The fogs of these autumn nights and mornings are surcharged with the elements of intermittent and bilious remittent fevers, and, unfortunately, two-thirds of the community are just in the condition to be disastrously affected by them. Those who have been prudent enough to fortify themselves during the summer with that powerful and infallible vegetable invigorant—HOSTETTER'S STOMACH BITTERS—are fore-armed against malaria, and have nothing to fear. But health is the last thi[ng] too many think abou[t]. In the pursuit of gain or pleasure the blessing, without which wealth is dross and enjoyment impossible, is neglected.

Better late than never is a consolatory proverb, however, and all who begin to feel the premonitory symptoms of any of the epidemics which are engendered by the malaria of autumn, should immediately resort to the GREAT ANTIDOTE OF THE AGE. A few doses of the BITTERS will break up the chills and prevent their recurrence. In every region where intermittents prevail this purest and best of all vegetable tonics is indispensable. Of all antibilious preparations known it is the most effective and harmless. It does not stimulate the liver violently, like the mineral salivants, but tones, renovates and regulates the organ without creating any general disturbance of the system or entailing any reaction. The Bitters are essentially a household specific, and should be always within reach as the very best means of preventing and checking bilious attacks and intermittent fevers.

CHRONIC DISEASES OF THE EAR.

In observations and notes taken by Dr. KEYSER, of this city, on the various diseases of the ear, he says that nine out of ten cases could be cured in their incipiency if application were made to some responsible and competent aural surgeon. The Doctor quotes from the opinion of Wilde, a well known aural surgeon, who says: "I fear not to reiterate the assertion which I made on several former occasions, that if the disease of the ear were as well studied or understood by the generality of practitioners, and as early attended to as those of the eye, it would be found that they were just as much within the pale of scientific treatment. * * Deafness is so common and so distressing an infirmity, and when of long standing so incurable, that we cannot too strongly urge all medical practitioners to make themselves familiar with the treatment of the diseases of the ear."

The Doctor says that nearly all annoying Discharges, Buzzings and Morbid Growths peculiar to the organ of the hearing, some of which had lingered through a score or two of years, can be cured or ameliorated by proper treatment.

NEW ADVERTISEMENTS.

THE GREAT

PACIFIC RAILROAD,

—receiving the aid and supervision of the Government, and carried forward by the extraordinary resources and energy of the powerful Corporations to which it was entrusted—is rapidly approaching completion, and it is safe to say that NEW YORK AND SAN FRANCISCO

WILL BE CONNECTED BY RAIL

BY THE FOURTH OF JULY NEXT.

More than two-thirds of the Through Line and Branches between the Missouri River and the Pacific Ocean are constructed, at a cost of nearly

ONE HUNDRED MILLIONS,

And the remainder is being pushed forward with unparalleled vigor. The

Central Pacific Railroad Co.,

To whom belongs the Western and Principal Portion of the Main-Stem Line, receive from the United States Government,

I. The right of way through the Territories, with the use of timber and materials along the route.

II. An absolute grant of twenty sections per mile (**12,800** acres,) of the PUBLIC LANDS on the line, the minimum value of which is now fixed at **$2.50** per acre.

III. A special issue of U. S. Six Per Cent. Bonds, at the average rate of **$35,000** per mile, delivered as the work progresses, which the Company are allowed to repay within thirty years, mainly by transportation services.

IV. Authority to issue their own First Mortgage Bonds to the same amount, having the preferred lien—superior to that of the Government.

V. It receives, in addition, donations and subsidies from the State and Cities of California, amounting to more than **$3,000,000** IN GOLD;

Or an aggregate of Cash Resources for construction of **more than sixty millions upon 725 miles,** independent of the ten millions of acres of public lands, and further subscriptions to the Capital Stock. The early completion of the enterprise is therefore beyond all doubt.

This Company have already carried their road successfully across the Sierra Nevada Mountains, and are rapidly extending the track across the Salt Lake Plains, and have already a valuable way-traffic thereon. Besides a mileage upon all through business, this road, having the best lands for settlement, the most productive mines, the nearest markets, and being exempt from competition, will always command large revenues. The net earnings upon the completed portions are more than double the total annual interest liabilities to be assumed thereupon.

The undersigned offer for sale, and recommend to investors, the

FIRST MORTGAGE 30-YEAR GOLD BONDS

OF THE

Central Pacific Railroad Company,

Bearing six per cent. per annum interest, both principal and interest payable in

"UNITED STATES GOLD COIN."

These Bonds are the first lien upon one of the most productive and valuable railroad lines in the world—a line which will be finished within twelve months, and which is already earning, after paying operating expenses, more than twice the annual charge of its Bonded Debt. They are already widely known and esteemed in this country and Europe, and it is believed the remainder of the Loan will speedily be taken.

A limited amount will be disposed of at

103 Per Cent., and Accrued Interest, in Currency.

The Bonds are of **$1,000** each with semi-annual gold coupons attached, payable in July and January.

☞ The Company reserve the right to advance the price at any time; but all orders actually *in transitu* at the time of any such advance will be filled at present price. At this time they pay more than **8** per cent. upon the investment, and have, from National and State laws, guarantees superior to any other corporate securities now offered.

We receive all classes of Government Bonds at their full market rates, in exchange for the Central Pacific Railroad Bonds, thus enabling the holders to realize from **5 TO 10** PER CENT. PROFIT, and keep the principal of their investment equally secure.

Orders and inquiries will receive prompt attention. Information, Descriptive Pamphlets, etc., giving a full account of the Organization, Progress, Business and Prospects of the Enterprise furnished on application. Bonds sent by return Express at our cost.

FINANCE AND TRADE.

OFFICE OF THE PITTSBUGH GAZETTE, MONDAY, September 14, 1868.

The large amount of exchange pressed on the market for sale, had a depressing influence on the price of gold, and 143⅝ was once the quotation to-day; the market rallied however and sold up to 144⅛ closing dull at 143⅞.

Government bonds were strong early in the day, but the decline in gold and the operations of the bear clique depressed the price ¼ per cent.; the easy money market greatly assists in keeping up the quotations, as likewise does the large short interest now said to amount to over seven million dollars. Nevertheless, the tendency is for lower quotations, the investment demand being very much limited.

Stocks are rather better to-day, especially Express shares, which advanced and closed strong. Merchants Union touched 24, and Adams 50. Erie shares are stronger; New York, Fort Wayne and North Western shares are all firm. The bear clique are doing all in their power to bring down stocks, and may succeed in making money scarce, a preliminary movement to a heavy decline.

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, September 14, 1868.

CATTLE.

The market was fairly supplied to-day though there was no surplus, and with a pretty sharp local demand, and some inquiry for shipment, prices were fully sustained, particularly for prime fat cattle, of which the offerings were light. As will be seen by reference to the report of sales, the best butchers stock sold at from 7¼ to 7½, with some few extra reported at 7¾. Common and scalawag stock appeared to move slowly, as is generally the case, and to effect sales, holders were obliged to accept lower figures.

The recent rains having started the grass again, farmers are not rushing this kind of stock to market as they did previously, when it looked as if the pasture was going to be very light this fall, if not a failure. There is another feature in the cattle trade which it may be well enough to notice. The panic which recently prevailed, not only here but all over the country, in consequence of the cattle plague, has almost entirely subsided. No new cases have been reported, for some time, and as consequence, those who have cattle are not so anxious to sell, while buyers, having become reassured, are taking hold with more freedom, and this with the fact that the pasture promises well, causes a better feeling and as will have been noted, a firmer feeling has prevented in most of the leading markets during the past two weeks, though prices have undergone but little change.

Stock Cattle meet with a continued fair demand, and we continue to quote at 4½ to 5½, according to quality and condition. Bulls in light supply and in limited demand; may be quoted at 2¾ to 3¼.

Sheitemantel & Flinner 12 head common Butler Co. Steers and heifers at 4 to 5 cts.

Jas. Duncan 27 head heifers and steers, from Trumbull Co. Ohio at 4,50 to 5,60.

M. Verner 27 head Washington Co. steers cows and heifers at 4¾ to 6¾.

Kraus & Haas 90 head Ohio stock, at 6 to 6¼.

Peter Hartman 25 head Green Co. cows heifers and steers at 5 to 7.

L. & J. Shamberg 49 head of Washington and Green Co. stocks at 3,75 to 7,50.

A. Katz sold 21 head scalawags at 2,50 to 3,50; 22 head fairish stock at 4,50 to 5,50.

SHEEP AND LAMBS.

There was again a very fair supply of Sheep on sale to-day, but with a good retail demand, the market was steady, and, prices, compared with last week, were pretty well sustained. One small bunch of extra Washington county weathers, averaging a fraction over 114 lbs, brought 5¼ cents per pound, and a much larger number of the same kind could have been sold at the same price. Many of our butchers paying a big price when they can get a nice fat bunch of sheep, and by the way there are but few of this kind offering. As will be seen by reference to sales, the great proportion of the Sheep on sale sold at from $1 to $4 per head, and there is now but little difference in the price of Sheep and Lambs.

Stakely & Bro. sold 170 head for Holmes at $1,50 to $2,60; 65 head Sheep for Wicks & Co., Butler county, at 50c to $2,50; 150 head of Sheep and Lambs, on their own account, at $1 to $4 per head.

John Beeler 80 Butler Sheep at $2 to $4,75, and Lambs, at an average of $1,75.

F. Keely sold 36 head Washington county weathers, 32 of which averaged 114, at an average of 5¼c.

Jas. Duncan 254 Sheep and Lambs, from Trumbull county, Ohio; the former at $3,25 to $3,75; Lambs at $2,25.

Seymour had 100 Sheep, on commission, for G. M. Teenan, at an average of $1,50.

J. C. Frazee 93 head Washington county Lambs, at an average of $1,37½.

Wicks & Co. 250 Butler county Sheep and Lambs at from $1 to $2,50.

Emerick & Co. 70 head Sheep—unsold.

HOGS.

There is a fair retail demand, and prices are unchanged, ranging from $10 to $11 per cwt. for good to prime heavy averages. Emerick & Co. bought 16 head from Marks & Bro. at 9¼, and 16 head for Myers & Needy at 10½.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, September 14, 1868.

CRUDE.

The market was very quiet to-day, and devoid of any new or important characteristics worthy of special notice. There was some little inquiry for this and next months delivery, at eleven cents, but there were no sales; there was a sale of 2,000 bbls to be delivered between January and July, seller's option, at ten cents; and eleven cents for the next sixty days, and ten cents for the first half of 1869, seller's option, may be regarded as the ruling quotations.

REFINED.

The market compared with Saturday has undergone no material change, though some dealers, thought it was a shade stronger. There were but two sales reported, two lots of 500 each for the last half of September at 29½. On Saturday there was a sale of 2,000 bbls to be delivered between now and January 1st, seller's option, at 27½; and it was also reported that the last three months. October to December, was sold, the same day at 28¾. We now quote spot at 29; last half September and October at 29½; and the last three months at 29. On cars here, quotations may be given at 26 for standard white.

FARM, GARDEN AND HOUSEHOLD.

Farm Notes For September.

Begin at once the work peculiar to the season. Remove weeds, and carry all decaying waste matter to the compost heap. All vacant ground or whatever is now to be cleared of earlier crops should be planted and filled up with fall crops.

Beans—Late crops should be cleared of weeds and earthed up.

Beets—Take up early crops by the close of the month. Be careful in storing them in a dry, airy place, the external moisture being well dried off before storing.

Cabbage—Sow seeds this month of hardy early sorts, to stand over winter and produce early crops. The early York is well known, and other hardy kinds may be tried, which the seedmen offer. The plants are to be set out on ridges about the 1st of November. Sow seed enough to insure an abundant supply.

Cauliflower—Seeds of this fine vegetable, for early spring and summer use, should be sown the latter part of the month. There is but little more skill required than in growing the cabbage, and it should be more common in our country gardens than it is.

Celery—As the crop advances continue to earth up every ten days or so, in dry weather, and without covering the bud.

German Greens—Sow early in the month, for late winter and early spring use. If the first sowing fail, sow again and again, and allow no failure of a crop, the value of which we do not sufficiently realize till we miss. If the weather be very dry, top-dress with long litter and manure after sowing.

Lettuce—For winter crop sow seeds early in the month. Plant out in rich beds such as are now fit, and keep well worked.

Onions—Take up onions when the tops have fallen, and leave to dry well in the sun before trimming them and storing them in a dry, airy place. Break down the tops of those that still exhibit luxuriant growth.

Radish—Sow now hardy varieties for winter use, such as black Spanish and winter Chinese rose.

Spinach—Sow of this for spring greens about the middle of the month. The prickly kind is the best.

Turnips—Keep them sufficiently thinned and clear of weeds.

Potatoes—When the tops are dead, they should be taken up and put away, eare being taken that they have sufficient ventilation, and are not in too large bodies.

How a Hog Sweats.

Not like a horse or man, but through his fore legs. There is a spot on each leg, just below the knee, in the form of a sieve; through this the sweat passes off, and it is necessary that this be kept open. If it get closed, as is sometimes the case, the hog will get sick; he will appear stiff and cramped, and unless he gets relief it will go hard with him. To cure him simply open the pores. This is done by rubbing the spot with a corn cob, and washing with warm water.—*Rural World.*

Use a Digging Fork.

We are very much surprised, notwithstanding all we have written on the subject, to find so many people sweating away at digging with a spade, when, in nine cases out of ten, the digging fork will do four times the work in the same time, with inexpressibly less labor. It is scarcely necessary to say that the people we see so barbarous are not our readers, but even "our own" people do not seem to know that a four-tined fork is much better than a five-tined one.—*Gard. Monthly.*

The number of fruit growers in Michigan is estimated at 350. The number who make it a specialty is estimated at 275, and their farms range from ten to fifty acres. The number of fruit growers in the State is constantly increasing. As yet, however, the question has not been settled whether the business will prove profitable. The following figures exhibit a close (and perhaps under) estimate of the amount and value of the crop raised in the State last season;

	Bu.	Per bu.	
Strawberries	19,000	$4.00	$76,000
Blackberries and Raspberries	13,000	5,50	72,500
Peaches, baskets	400,000	1,25	500,000
Grapes, lbs	100,000	10	10,000
Apples, Peas, Plums	.....	.....	50,000
Total			$708,500

The remarkable feature in this exhibit lies in the fact that, until very recently, it was supposed that Michigan could never grow any amount of fruit. The value of the crop for the present year is estimated at $900,000.

The great Maine staple is hay, the crop of which is now nearly stored. It has been a most propitious season, continued rains in the spring and uninterrupted sunshine in the gathering. Barns overflow with a crop almost twice that of ordinary years. The potatoes of Maine promise, too, an abundant yield. Other staples, such as granite, ice and lime, depend less on the seasons and more on individual enterprise, which is more active now than ever.

Sawdust and Chip Manure.—These are excellent articles for promoting the growth of the vines, shrubs and small plants. They should be thrown into a pile, after removing the coarser portions of the mass, and thoroughly saturated once or twice a week with a mixture of urine and soapsuds. This will induce incipient fermentation, and so far break down the texture of the mass as to prepare it to act with energy when applied to any soil or crop.

Sore shoulders in working horses may be effectually prevented by cutting a piece of leather into a shape so as to lie snugly between the shoulders of the horse and the collar. This fends off all the friction, as the collar slips and moves on the leather and not on the shoulders of the horse. Chafing is caused by friction; hence this method is a plausible one, and is much better than tying slips of leather under the collar.

John Johnson says he has used manure only as a top dressing for 26 years, and that he thinks one load used so is worth far more than two loads ploughed under on stiff land.

The *American Agriculturist* says tallow is the best article for greasing wooden axles, and also recommends castor oil for iron and steel axles. In either case but little should be used.

A farmer says the best plan for any one to adopt when there are any insects on fowls, is to let them sleep on pine shavings, and the turpentime will soon drive away all insects. I sometimes sprinkle it on my dog's bed, and the fleas soon leave.

It is said that a small "native" cow belonging to Dr. Randall, of Farmington, Me., has given milk from which an average of 11½ pounds of butter per week has been made during six summer months.

It is said an Ethan Allen colt, after having been pronounced worthless as a trotter, was sold in Boston five years ago for $120. The purchaser has recently been offered $12,000 for him.

A cow, eight years old, belonging to Prof. Boomer, of Whitsboro', New York, in thirty days, this summer, gave 1,662¾ pounds of milk, as is reported to the Utica *Herald.*

Downing says that the curl in peach trees is occasioned by the punctures of a very minute aphides or plant louse which attacks the under side of the leaves and greatly disfigures them. Whale oil soap-suds is the best remedy.

The *Cottage Gardner*, of London, says earthing up potatoes diminishes the product and retards the ripening of the tubers. Long experiments in England have proved this fact—that hilling up the potato will reduce the crop one-fourth.

Youatt, the well-known veterinary surgeon, who has been bitten eight or ten times by rabid animals, says that crystals of the nitrate of silver rubbed into the wound will positively prevent hydrophobia in the bitten person or animal.

The veterinary editor of *Wilkes' Spirit of the Times*, recommends the following for scratches in a horse: Take sulphate of zinc, one drachm; glycerine, two ounces; apply every morning.

It is now ascertained, by weighing hay into the mow in July and out in February, that the shrinkage amounts to about 28 per cent.

The experiment of planting a tomato plant by the side of fruit trees, shows that in no case yet has the borer troubled such trees.

It is but a few years since Califoroia had to be supplied with wheat flour from Chili and New York. Since July 1, of last year, one hundred and fourteen cargoes of wheat or five millions of bushels, valued at $6,500,000 have been shipped from that State to England, doing much to save England from famine, and the United States from famine prices.

Last year two thrifty Germans purchased eighty acres of land in Southern Tennessee. This season they gathered strawberries enough from four acres of it to pay for the whole tract.

Alton, Ill., has shipped more than 1,000 bushels of strawberries this year.

Wine, it is said, is being made in Gainesville, Fla., of tomatoes, which is reported splendid.

Land near Pleasantville, Venango county, which was offered one month ago at $250 per acre, in now held at $4,000 per acre.

An Alderney cow, recently imported by Mr. Sharpless, of Philadelphia, has on two separate trials made 13 pounds of butter per week, giving 24 quarts of milk per day, without other feed than grass in the pasture.

A farmer in Derbyshire, England, recently took a prize at a fair on two cabbages that averaged 72-12 pounds.

Andrew S. Fuller, author of "Small Fruit Culturist," says that with him coal ashes are wor h $3 or $4 a load, especially on Sandy land.

A correspondent of the *Country Getleman* suggests, as an effective method of improving our stock, that a considerable tax be levied on all stallions, bulls, rams and boars. He thinks this would have the effect of decreasing the number of inferior or "scrub" animals of each class.

SPECIAL NOTICES.

THE APPETITE FOR

Tobacco Destroyed!

Leave off Chewing and Smoking the Poisonous Weed, Tobacco.

One box of ORTON'S PREPARATION is warranted to destroy the appetite for tobacco in any person, no matter how strong the habit may be, IF IT FAILS IN ANY CASE THE MONEY WILL BE REFUNDED. It is almost impossible to break off from the use of tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted; with the help of the preparation there is not the least trouble. Hundreds have used it who are willing to bear witness to the fact that ORTON'S PREPARATION completely destroys the appetite for tobacco and leaves the person as free from any desire for it as before he commenced its use. It is perfectly safe and harmless in all cases. The Preparation acts directly upon the same glands and secretions affected by tobacco, and through these upon the blood, thoroughly cleansing the poison of tobacco from the system, and thus allaying the unnatural cravings of tobacco.

No More Hankering for Tobacco after using Orton's Preparation! Recollect it is Warranted. Beware of Counterfeits!

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession:

[From W. P. Heald, Esq., Bangor, Me.]

BANGOR, Me., April 24, 1868.

I hereby certify that I have used tobacco for thirty years past, and for the last fifteen years I have used two pounds per month. I have made attempts to leave off at different times. I have left off one year at a time, but always continued to hanker for it until I used Orton's Preparation, which has completely cured me of the appetite for tobacco. I would recommend all who are affected with this terrible habit to try the preparation, which will certainly cure it if the directions are followed.

W. P. HEALD.

[From E. W. Adkins, Knoxville, Tenn.]

KNOXVILLE, Tenn., August 5, 1867.

This is to certify that I had used tobacco to such an extent that my health had become greatly impaired, and my whole system deranged and broken down. In June, 1867, I purchased one box of Orton's Preparation, and after using it I found that I was completely cured. I have not had any hankering or desire for tobacco since using the preparation. I believe it to be all that it is recommended, and I would advise all who wish to quit the use of tobacco to try one box of Orton's Preparation.

E. W. ADKINS.

[From John Morrill, Bangor, Me.]

BANGOR, Me., March 24, 1868.

This is to certify that I have used tobacco for eighteen years; have tried many times to leave off, but have suffered so much from a dizziness in my head, and gnawing at my stomach, that I have soon given up the trial. A short time since a friend induced me to try Orton's Preparation (sold by you.) I have done so, and am completely cured. I did not in the least hanker after tobacco, either to smoke or chew, after I began to use the Preparation.

Third and Smithfield streets received a thorough scraping yesterday.

Firemen's Tournament.—There is some talk among the firemen of this city about getting up a tournament here.

Horses Purchased.—The Independence Fire Company of the Twelfth ward have purchased a pair of fine bay horses.

Repairing.—The hose carriage of the Hope Fire Company of Allegheny is undergoing repairs and will be out of service for a few days.

Preparing.—The Eagle Fire Company are making preparations to visit Philadelphia, to be present at the inauguration of the Lyle monument.

Arm Broken.—A man named Williamson had his right arm broken on Saturday by falling through the joists on the first floor of a new building now in course of erection on Franklin street.

Temperance Meeting.—The Allegheny Temperance League will meet this evening at seven and a half o'clock, in the South Common Methodist Episcopal Church. Several addresses will be delivered.

Struck Him.—Wm. Weaver alleges that Wm. Markham made a mark of his mouth by striking it a severe blow with his clenched fist. Alderman McMasters issued a warrant for the arrest of the pugnacious individual.

Selling Liquor on Sunday.—Wm. Weaver made information yesterday before Alderman Strain against John Wilhelem for selling liquor on Sunday. Wilhelem keeps a saloon in the Diamond. He was arrested and held for a hearing.

Damaged.—The rain on Saturday considerably damaged the sewer of Try street. It is said that the wall supporting the track of the Pan Handle Railroad is giving way at that point and passengers are in consequence transferred at that point.

Committed.—Eliza McGee made two informations yesterday before Alderman Herron against two of her neighbors, Mary Mellon and Mary McIntire for surety of the peace. The accused were arrested and in default of bail committed for trial.

Choked.—Charles Wright has been doing very wrong, according to the statement of Francis Drew, who alleges that Charles gave him a severe choking. Alderman McMasters issued a warrant for the arrest of Wright for doing that which was altogether wrong.

The Second Ward Grant Club will fire one hundred guns in honor of the Maine election to-night. They cordially invite all other companies of the city to participate in the affair. The procession will be formed at Wilkins Hall at 6.30 o'clock, P. M., and all wards are invited to be present.

The Chronometer in Dunseath and Haslets' jewelry store was unaccountably stopped and found out of order several weeks ago. Those who depended on its truthful time telling qualities will be pleased to to learn that it will soon occupy its accustomed place as time regulator for thousands who swear by its accuracy.

Educational.—The great inducement offered by the High School Commercial Department under the charge of Prof. R. Johnson, are fully appreciated in this community. In this institution designed for public good any person can enter the commercial department at mere nominal cost and secure a thorough business knowledge and training.

Beat His Wife.—Mary L. Summerhalter made information before Alderman Owston, yesterday, charging her husband, Fred Summerhalter, with assault and battery. The parties reside at No. 756 Penn street. The prosecutrix alleges that the defendant beat and abused her by striking and threatening to kill her. A warrant was issued for the arrest of the accused.

Returned.—Prof. Jillson, J. H. Henderson, R. C. Cust and J. H. Hopkins, Esqs., have returned from their excursion trip to the Rocky Mountains. The former gentleman, of the Western University Faculty, made many valuable observations during his prolonged jorney in the great far West, some of which we hope he will furnish our readers through these columns.

The Old Third Ward Democracy yesterday elevated a great tall pole on Tunnel street, on the top of which they placed a noble specimen of the hero of the barnyard, supposed to have been one of Mr. Barr's own raising. Unfortunately, the wind blowing from the direction of Maine, was too much for the rooster, and he fell to one side, and there, dead as possible, he hangs to the pole.

Base Ball.—The first game for the championship, which was to have taken place on Saturday afternoon between the Olympic, of Allegheny, and the Atlantic, of the Twelfth ward, Pittsburgh, two of our crack base ball clubs, did not take place owing to the inclemency of the weather. The game will, however, come off to-day if the weather permits, at three o'clock, in the Union Park. A close and animated contest is anticipated.

Trial of a Steamer.—During the visit to Sandusky the Niagara Steam Engine had one of its pumps broken. The damage was repaired on arriving home and yesterday the boys had the "machine" out on the Allegheny wharf, testing its capacities. When we left the steamer had succeeded in throwing a powerful stream of water two hundred and thirty-five feet and six inches, and the boys were preparing to have another trial, confident that the distance could be increased.

Trespassing.—John H. Page, Jr., of East Birmingham, made information before Justice Ammon, yesterday, charging Thomas Hollis and George Bert with malicious trespass. He alleges that the accused went into his orchard and destroyed his fruit and fruit trees. Hollis was arrested, and after a hearing a fine of five dollars was imposed upon him, upon payment of which he was discharged. Bert has not yet been arrested, but the officer is after him, and when captured he will be treated in like manner.

Improvement.—We noticed yesterday that the staunch "Fayette" of the old line of Brownsville Mail packets had been thoroughly renovated and painted throughout, changes which very greatly add to her appearance. With such improvements, under the auspices of Capt. Donaldson, and especially with our genial-hearted, obliging friend Crawford, doing the honors of the office, the old "Fayette" has certainly commenced on a new lease of prosperity and cannot fail to be even more popular than heretofore.

Child Poisoned.

Yesterday morning a little boy named Koll, residing in the Second ward, Allegheny, was sent to a store in the neighborhood to purchase some washing fluid, a bottle in which to carry it having been given to him. Either on his way home or immediately after he had arrived he took several large draughts of the compound. Shortly afterward he was taken very sick, and large black spots appeared on his body, which so alarmed his friends that a physician was called in, who administered the proper remedies for a case of poisoning, the little fellow in the meantime having informed his parents of his drinking the fluid. The child was altogether too young to understand the effect of the drinking, but it is probable he will not recover, the physician deeming the case a precarious one.

THE GRAVEYARD QUESTION.

Meeting of the Lot Owners—Report of the Committee—Resolutions Authorizing the Committee to Obtain an Injunction Against the Commissioners.

When we made our last report of the meeting of the lot owners in the Methodist graveyard, Eleventh ward, we were led to believe, from the representations of one of the Commissioners present at the meeting, and the propositions made by the lot owners, that the difficulties would be arranged without further trouble; but it appears that our conclusions were incorrect, and from statements made to the Committee since that time, it would seem that the Commissioner alluded to, who at all the meetings pretended to be in sympathy with the lot owners, is as much if not more to blame for the failure to come to an understanding than either of the others.

The Committee appointed by the lot owners, after making several attempts to settle with the Commissioners, all of which were unavailing, called another meeting on Tuesday night of last week but owing to the small number of persons present the meeting adjourned to convene last night, at the Eleventh Ward School House. At eight o'clock last evening, a large number of persons having assembled at the School House, the meeting was called to order by Captain Andrew Miller, on whose motion Mr. Aaron Floyd was called to the chair, Mr. James McKean officiating as Secretary.

The minutes of the preceding meeting were read and adopted.

The Chairman called upon the Committee for their report. Capt. Miller, one of the Committee, made a verbal report: He said he was sorry to inform the meeting that the Committee had been unable to effect any definite arrangements with the Commissioners. He said the whole secret of the affair, so far as he could ascertain, was occasioned by a disagreement between the Commissioners. When the law was first passed Mr. Kincaid had undertaken to run the affair himself, but his brother Commissioners would not agree to let him have full control, and put money in his own pocket, and consequently they resigned. He, Kincaid, then obtained the appointment of those who are now acting with him, and they, without consulting Mr. Kincaid, undertook to conduct matters themselves. The committee had labored to effect some arrangement, but had signally failed. After all other propositions had failed, he had proposed to the Commissioners that the lot owners would remove their own dead and give up their titles to the lots, if the Commissioners would have the ground divided into lots and sold, and after the actual expenses had been paid the lot owners should have the residue of the money. To this proposition two-thirds of the Commissioners had agreed; but afterwards refused to be bound by the agreement, giving as a reason for so doing, that their attorney had informed them that it could not be done. But upon further investigation he discovered that it was because there was no money in the operation.

After detailing at length his interview with Mr. Vankirk, one of the Commissioners, he said there was but one thing left to do, and that was for the lot owners to apply to the Court for an injunction, and restrain them from any further action in the matter until a settlement is obtained.

The report was accepted.

Mr. King moved that the Committee be authorised to apply for an injunction against the Commissioners, restraining them from removing any more bodies from the grave yard until a settlement is obtained.

The motion was adopted.

Mr. Devore moved that each lot owner be required to pay to the Committee the sum of three dollars, and those not having the money to pay should give their certificate as security.

The motion was adopted.

The Chairman moved that a Committee on finance be appointed who should also be authorized to collect the assessment made, and also to make a record of the names of the lot owners.

The motion was adopted and the Chair appointed Benjamin Deval, James McKain and George Wilson as the Committee.

On motion, Mr. Robert King was added to the Committee.

Mr. White moved that all persons having made single interments in the graveyard be assessed one dollar each. The motion was adopted.

In accordance with the above resolutions about fifty dollars were paid into the treasury.

Mr. Henry presented the following resolution:

Resolved, That this meeting appeal to the members of the different Methodist churches of this city for aid in defending their rights to the ground consecrated to the burial of their dead, and that pastors be requested to announce the same from their pulpits, any contributions to be paid to the Treasurer, Captain Andrew Miller.

The resolution was adopted.

On motion of Mr. Best, a vote of thanks was returned to the Committee for the able manner in which they had attended to the duties of their appointment.

The motion was adopted with a rising vote.

On motion of Mr. Chaperon, a Committee of three was appointed to obtain testimony.

The meeting then adjourned.

Unparalleled Railroad Progress.

The Pacific Railroad hastens toward completion. No peaceful enterprise of ancient or modern times was ever prosecuted with such energy and persistence. The two mountain ranges of the Continent have been successfully crossed, and within a year we shall have unbroken communication between New York and San Francisco. At the latest dates there remained only a gap of five hundred and twenty miles between the Eastern and Western portions. The line is being extended from both directions as fast as labor and means can grade and lay the track, the Central Pacific Company having put down six miles in a single day. By the close of this year, it is thought, the gap can be reduced to less than three hundred miles, possibly to less than two hundred.

Thus far, the Central Pacific Company have sold their own First Mortgage Bonds, as fast, or faster than they received the corresponding United States Bonds on the road built, and in some cases it has been necessary to issue Certificates calling for the former, as soon as the Company could deliver them. It is not improbable, therefore, that the whole of their First Montgage Loan will be disposed of before the through connection is made, and, perhaps, before January next. The advantages of these Bonds, as well as much information concerning the Road, is set forth in our advertising columns of this issue.

An Independent Thief.

Yesterday morning about ten o'clock a middle aged man, well dressed and having the appearance of a gentleman, entered Mr. Theures' merchant tailoring establishment, at the corner of Tunnel street and Fifth avenue, and inquired the way to East Liberty. Mr. Philip Yost, who was the only person in the store at the time, told him that the street cars ran there. The old gentleman was about to leave the store when a young man stepped in and asked the old man to wait until he looked at some goods. York left the board upon which he had been working to show stranger No. 2 the goods, and it appears left his watch hanging against the wall over the board. While No. 2 was looking at the goods the old man, it is alleged, took the watch and left the premises. Yost failed to make a sale, and after his customer had left put up the goods, a large quantity of which had been thrown upon the counter, and then returning to the board to resume work missed his watch. He made the matter known to the police at once, but up to a late hour last night the shrewd thief had not been captured or the watch recovered.

Court of Quarter Sessions.

[Before Judge Sterrett.]

Court met at the usual hour on Monday and transacted the following business:

BURGLARY AND LARCENY.

John Clark, John Wilson and Patrick Simpson, three lads, were placed on trial for burglary and larceny. J. N. Jordan, residing and keeping store at No. 243 Webster avenue, testified that on the night of the 18th of August his store was broken into and robbed of some five dollars in fractional currency and nickel cents, a box of cigars and a number of base balls. The thieves entered the store over the transom at the front door, which it seems was unfastened. Mr. Jordon identified some of the base balls exhibited, but would not positively say that a box of cigars, also shown, was his property. Policemen testified to the arrest of the defendants and to finding in the possession of one of them the box of cigars exhibited. After they had been locked up in the tombs they were taken out and searched, but nothing likely to have been stolen found with them. The Captain of the Police remarking that he observed one of the boys with a base ball, a further search led to the discovery of five base balls and a number of old coppers tied in a rag concealed in the ventilator of the cell occupied by the prisoners.

No witnesses were offered for the defense. It was contended the charge of burglary was not sustained, the store having been entered, it appeared, without any breaking. The Commonwealth did not insist upon a conviction on the burglary count. The evidence in the case, while it strongly indicated guilt, did not conclusively establish it. Verdict, guilty of larceny, and recommended to the mercy of the Court. Sentence deferred.

FREE USE OF A HANDY BILLY.

Commonwealth vs. Peter Delaney: indictment assault and battery. Thos. Murdoch, a ward constable, testified that on the 3d of August, in the night time, while on his way home, he was accosted on the corner of Washington and Webster street by defendant, who used most insulting language, and struck him a slight blow on the cheek; that he (witness) *defended* himself, using a handy billy; could not say whether he struck defendant five or ten times on the head; could not say whether defendant was much hurt; did not look; he was bleeding. Wm. McKinney, policeman, testified he was on the opposite side of the street, and heard the fuss; saw Delaney going toward Murdoch, and saw them come to blows; Delaney was knocked down and Murdoch continued beating him as they lay in the gutter; the witness first arrested Murdoch, not knowing he was an officer. Manus McLaughlin, the next witness, testified that he was present at the time; that Delany remarked to Murdoch that he would not believe him upon oath, said he was a fraud, and used other insulting language; Murdock then called policeman McKinney, on the opposite side of the street, who rapped his mace; he (Murdoch) then went toward Delaney, and commenced beating him; they both got down into the gutter; the policeman separated them and arrested Murdock, Delaney passing into the witness' house bleeding profusely; Mr. McLaughlin said Delaney did nothing more than use insulting language, did not strike or strike at Murdock; if he had done so witness would have observed it. Dr. Gallaher was called and testified he had dressed five very severe wounds on Delaney's head, inflicted with a blunt instrument. Jury out.

According to the testimony of the prosecutor himself he was guilty of an assault and battery upon the defendant, and had there been cross-bills he could scarcely have escaped conviction. For a slight blow on the cheek he drew his handy-billy and inflicted repeated blows (he did not know how many) upon the defendant's head, and continued beating him until a brother policeman separated them, and who, from his observation, had arrested Murdoch as the worst of the combatants. Learning, however, that he had an officer in custody, he released him and took Delany in charge, and conveyed him to the tombs. When the case came on to be heard before the Mayor, it was in the shape of a charge of assault and battery against Delany, preferred by Murdoch. It is a fair conclusion that Murdoch assumed the role of prosecutor, not through an honest belief that he was the injured or aggrieved party, but in the hope of closing the mouth of Delaney. As an officer he could not justify his brutal conduct, and standing in the relation of a private citizen he was equally culpable. Granted that he feared Delany would use a knife upon him, was he not armed himself and a brother officer within easy call? It did not appear that Delany had a weapon or made any threats. The "aggravation" was in the language used by Delany, Murdoch, in his relation as an officer, believing he had a right to resent the personal insult in the manner he did—a mistake frequently made by policemen of this city, and which has contributed much to bring discredit upon the force. "No "words" will justify an assault and battery by a citizen, much less by an officer, (whose *business* it is to *preserve* the peace) and a battery, such as that committed by Murdock upon Delany could be justified only in the protection of one's life.

AN INSANE.

Winterfield Fogle, residing on Penn street, was indicted for felonious assault and battery, in drawing a loaded pistol and attempting to shoot Andrew Cronin, on the night of the 28th of July. The jury found a verdict of not guilty by reason of insanity.

A BOY THIEF.

Robert Johnson, a lad under fourteen, was tried for the larceny of money from the tobacco store of Miss Emma B. Given, on Penn street, in the latter part of August. It appeared that he was in company with two other lads, and that they had entered the store during the absence of the proprietress. When arrested the prisoner had some of the stolen money in his possession and confessed his guilt. The jury found a verdict of guilty. Sentence deferred.

A SLEEPER ROBBED.

John W. Showalter and John Hixenbaugh were placed on trial on a charge of stealing a silver watch and coat, the property of W. H. McKinley, on the evening of the 26th of July last. The prosecutor testified that he was a steamboatman; that on the evening mentioned he left the boat and laid down on the river bank, at East Birmingham; the weather being warm he took off his coat and placed it under his head; he fell asleep; awakened about ten o'clock and discovered that while he had slumbered his coat had been stolen and also his watch. A Mr. Hays testified to having obtained a watch from one of the defendants, Showalter, who represented himself as a roller, and that he was about to go to work in McKnight's mill; witness loaned him eight dollars, retaining the watch; soon after witness learned the watch had been stolen, and delivered it to the Mayor. Officer Messner testified to having arrested Hixenbaugh, who had confessed to taking the coat. The coat and watch were produced and identified. Defendants withdrew their plea of not guilty, entered the plea of guilty, and asked the Court to defer sentence to allow evidence to be offered in mitigation of their crime.

Mutual Loan and Building Association.

The first general meeting of the Iron City Mutual Loan and Building Association was held at the Board of Trade Rooms last evening. A temporary organization was effected by electing the following gentlemen as officers of the Association:

President—R. J. Stoney.
Vice President—M. Malone.
Secretary—F. P. Smith.
Treasurer—Ed. F. M'Elroy.

The stock books will be open for subscriptions at the Board of Trade Rooms, Wednesday, September 23d, at 8 o'clock P. M. The officers selected are good men, and will, we have no doubt, perform the duties of their respective offices faithfully and in a satisfactory manner.

Our Observatory.

The public may be interested to know what has been done to the Observatory since it was transferred to the Western University. A large debt has been paid, the Chair of the Director, Prof. S. P. Langley, has been endowed. At the present time workmen are engaged in altering the dome and making repairs on the building preparatory to the receipt of the new instuments which have been ordered.

The equatorial has been taken down and put in complete repair, and the labor of renovating it will, it is hoped, be completed this month. Piers for the transit are nearly completed and the European makers promise the instrument itself the present month. The Clock, which has been in process of construction in London the past few months, is now passing through the New York Custom House. The maker of this instrument stands at the head of his profession in the world, and we have the best assurance that no more perfect specimen of the art of horology has ever been seen. The Chronograph is now in course of construction in this country, the best makers of that instrument being Americans. An excellent Marine Chronometer has been provided. Such instruments as have been procured for metereological observations are by the best makers. The Spectroscope is in all essential respects similar to that employed by Messrs. Huggins and Miller, with some improvements derived from the suggestions of those gentlemen. Other instruments will be procured as soon as funds shall be obtained. It is hoped and believed that the Observatory, while highly useful to the University by furnishing a Professor of Astronomy to that institution, and the best advantages in instruction to all its students who may desire to obtain a thorough knowledge of this science, will also confer honor on our two cities. Notice will be given of the completion of these arrangements and of the plan which shall be adopted to fulfill all promises made to contributors.

Overcoat Stolen—The Thief Captured.

The boarding house of Mrs. Young, at the corner of Oliver and Carson streets, Birmingham, was visited by one of those meanest of all thieves, a boarding house pilferer, last week, and Saturday morning he walked away with an overcoat valued at $60, the property of Williem Phillips, a mill hand, who boards at the house. The thief came to the house and obtained boarding on Wednesday, giving his name as John Rine, and on Saturday morning, after Phillips had gone to work, Rine entered his room, took the coat and left the premises. About two o'clock Phillips returned to the house and missing his coat made inquiry about it when he ascertained that no one had left the house since he had departed in the morning, except Rine. Officer Stemler, of South Pittsburgh, being informed of the theft, and receiving a description of the thief, started in pursuit and succeeded in arresting him Sunday morning on Carson street, Birmingham, and took him to Justice Saulsbury's office, when an information for larceny was made against him. Rine admitted that he took the coat, but refused to give any information that would lead to its recovery. He stated that he had left it at a house on Pike street, and afterwards said he had given it to another man who took it to Allegheny. Phillips, accompanied by officer Vogle, visited a second hand clothing establishment on Fifth avenue, in the Fifth ward, where he found a coat which he identified as the one stolen from him. The proprietor of the establishment, however, refused to give it up. If the coat is clearly identified he may get himself into trouble by refusing to return it to the owner.

Arrested on Suspicion.

Yesterday afternoon a Mrs. Rolfe from the South side had her pocket picked of twenty-five dollars while making some purchases in Lynch's store, on Market street. She was examining goods at the upper end of the counter when two well-dressed women came in and separately took positions on either side of her. After looking at the goods, and making some inquiries in regard to the quality and price, they took their departure without making any purchases. Shortly after they left Mrs. R. discovered that her pocket had been picked, and making the fact known to Mr. Lynch he followed the ladies who had just left the store. They proceeded to the Birmingham car station and taking a car rode to Birmingham and then returned, Mr. Lynch going in the same car. When they returned he called an officer and had them arrested. They were taken to the lock-up and searched, but no evidence of guilt was found upon them. They gave their names as Mrs. Carlin and Reymer, and purported to hail from Chicago. They were detained in the lock-up all night, and will have a hearing this morning.

United States District Court.

[Before Judge McCandless.]

In the bankruptcy issue of Buckley, Seldon & Co. vs. W. H. Carle the jury found that the alleged acts of bankruptcy, as set forth in creditors' petition, were not true.

The case of the United States vs. 138 barrels of cut and dry tobacco, and same vs. fifty barrels of the same, owned by J. K. Taylor, were then taken up and tried together. The case was on trial at the adjournment of Court.

In the bankruptcy branch final discharges were granted and certificates awarded to Alonza Patch, Wm. H. Mace, John W. Porter, John F. Porter, and F. O. Crocker, of Warren county, and Melchoir Hasly, of Allegheny City.

Petitions for final discharge were filed by Fred Rudolph, of Elk county; George P. White, Warren county; Isaac B. Jacobs, Venango county; P. W. Barrett, Elk county; Emanuel Greenwald, of Allegheny city.

In the matter of Phillip Wilson, bankrupt, on petition of E. G. Stone & Co., creditors, the Court ordered an examination of said bankrupt before Register Purviance.

The Mayoralty.

Editors Gazette: I am informed that Mr. Blackmore has quite a number of persons engaged in canvassing the city for signatures to a card, calling on him to become a candidate for Mayor. If such is the case, and I have no doubt of it, I would remind any of our Republican friends who may be inclined to sign the call, through personal friendship, that Mayor Blackmore emphatically expresses his intention to vote for Seymour and Blair, and use all the influence at his command to secure their election. Should the Republicans be so unwise as to again place him at the head of affairs in this city, it will undoubtedly be claimed as a great Democratic triumph. Let us remember our humiliation last year when the disloyal newspapers all over the country gloried most exultingly over what they termed a victory, in the election of a Democratic Mayor in the city of Pittsburgh. Why, a Democratic Congressman even contemptuously introduced a resolution in Congress "declaring Pittsburgh out of the Union until she should be reconstructed;" and the *Post* could hardly procure enough roosters to crow at the result. I trust Republicans will keep in mind these facts, and "reconstruct" the city in October, by the election of Mr. Brush (who is in every way as competent, at least, as Mr. Blackmore,) to the Mayoralty, on the eve of a great victory in November for Grant and Colfax.

Grand Picnic.

Under the auspices of Post 117 G. A. R., there will be held a grand picnic to-morrow at McFarland's Grove. Ample arrangements have been made to secure the enjoyment of those who may attend.

M., 9:00 P. M., railroad time. Trains will leave the grove for the city at 2:01 P. M., 5:33 P. M., 7:01 P. M., 9:17 P. M., and 12 o'clock midnight. Cars on the East Liberty and Oakland Passenger Railroad line will leave corner of Fourth and Market streets every fifteen minutes for the grove. The grove will be brilliantly illuminated and a grand display of fire works will take place in the evening.

Most Bitters of the present day that are loudly puffed through the newspapers as having great curative properties are vile compounds and base impositions, containing no medicinal virtues whatever, and are really very poor whisky beverages, and, instead of acting as a stimulant and tonic, have a tendency to weaken the stomach by entirely destroying the coating. The public should therefore be very cautious and purchase none but *Roback's Stomach Bitters*, which have stood the test as a remedial agent for many years, and are really as their name indicates, a *stomach bitters* and *not a beverage*. They combine the properties of the best tonic and a stimulant—a laxative, an efficient and anti-bilious agent and the best stomachic known to the world, and when taken in conjunction with *Roback's Blood Pills*, are the safest and surest preventive against all bilious derangements, thoroughly regulating the whole system and giving tone to the digestive organs.

They are highly recommended as an invigorating tonic to mothers while nursing, increasing the flow of milk, and for convalescents, to restore the prostration which always follows long-continued sickness, they are unsurpassed. No household should consider themselves safe from the ordinary maladies without these invaluable medicines. They can be obtained of any druggist. TTSF

Fancy Japanese Goods and Shells of Exquisite Beauty.—Beautiful goods from foreign countries have frequently been sold by auction—but those now on exhibition at Palmer & Phillips' sales rooms, No. 60 Fifth avenue, surpass anything ever offered in this or any other city. Time would fail us in attempting to describe all that are worthy of special mention, and must be seen to be appreciated and valued. The sales commence this evening, and we would advise those desirous of procuring tokens of remembrance and gifts to call and examine this vast collection of rare goods. A visit to Palmer & Phillips' rooms will repay the lovers of the beautiful. T. Boyton, Importers' agent.

A Public Speaker made a good hit at a Birmingham meeting the other night in suggesting that the Freedmen's Bureau wasn't half so good for keeping clothing as one of the trunks turned out by the Premium Trunk Factory of Joseph Liebler, No. 104 Wood street. Politicians may be divided as to the good qualities of the Freedmen's Bureau, but they all agree that Liebler's trunks are eminently worthy the fame they enjoy. Call in and satisfy yourself on this point.

CAUTION!

TO BUYERS OF TEA.

C. A. BOUCHER,

114 SMITHFIELD ST.

OPPOSITE POST OFFICE.

Original Red Front Tea Warehouse

The undersigned would respectfully call the attention of buyers of Teas to the inconsistent and false statements made by the

BOGUS TEA COMPANIES

Of the present day. Men with scarcely sufficient knowledge of Tea to distinguish Black from Green are advertising themselves as the Great Tea Companies of the country, and claim to sell the best Teas at from 80c. to $1.25 per lb. More apparent falsehood and misrepresentation was never published.

To prove the outrageous nature of such claims it is only necessary to refer to published reports of daily Auction Sales of Teas, by the cargo, in the great market of New York, at which fine Teas cannot be bought for less than from $1.50 to $1.90 per lb.

Another active means of fraud in Tea Stores is in giving SHORT WEIGHT instead of

16 OUNCES FOR A POUND.

In this way many buyers are misled into the belief that they are purchasing goods at a reasonable cost, when, in fact, they are, by these means, swindled into paying excessive prices.

The undersigned will give a

REWARD OF $50,

for each and every case of short weight of tea, or other goods, as weighed on his tested scales.

☞ A descriptive Catalogue and Price List of Teas to be had on application.

C. A. BOUCHER,

No. 114 Smithfield Street.
